[No. 5265.]

For the prevention and cure of
BILIOUS AND MALIGNANT FEVERS.
Hahn's ANTI-BILIOUS PILLS
THIS Medicine has been attended
with a degree of success highly grateful
to the inventor's feelings in several parts
of the West Indies and in the Southern
and Middle States, &c.

The testimony of a number of persons
can be adduced, who have reason to be-
lieve that a timely use of this salutary
remedy has, under Providence, preserved
their lives when in the most alarming cir-
cumstances.

Facts of this conclusive nature speak
more in favour of a medicine than col-
umns of pompous eulogy founded on
mere assertion.

It is not indeed presumptuously pro-
posed as an infallible cure, but the inven-
tor has every possible reason that can re-
sult from extensive experience for be-
lieving that a dose of these Pills taken
once in every two weeks during the pre-
valence of our bilious fevers, will prove
an infallible preventive; and further,
that in the earlier stages of those diseases
their use will very generally succeed in
restoring health, and frequently in cases
esteemed desperate and beyond the pow-
er of common remedies.

The operation of these pills is perfectly
mild, so as to be used with safety by per-
sons in every situation and of every age.
They are excellently adapted to carry
off superfluous bile and prevent its mor-
bid secretions—to restore and amend the
appetite—to produce a free perspiration
and thereby prevent colds which are of-
ten of fatal consequences. A dose never
fails to remove a cold if taken on its first
appearance: they are celebrated for re-
moving habitual costiveness—sickness at
the stomach and severe head-ache—and
ought to be taken by all persons on a
change of climate.

They have been found remarkably effi-
cacious in preventing and curing disor-
ders attendant on long voyages, and
should be procured and carefully preserv-
ed for use by every seaman.

Hamilton's Elixir.
A sovereign remedy for colds, phre-
nate coughs, asthmas, sore throats, ca-
tarrhs, and approaching consumptions.
To parents who have children afflicted
with the **HOOPING COUGH**, this dis-
covery is of the first magnitude, as it af-
fords immediate relief, checks the pro-
gress, and in a short time entirely re-
moves the most cruel disorders to which
children are liable. The Elixir is per-
fectly agreeable, and the dose so small
that no difficulty arises in taking it.

Hamilton's Grand Restorative.
Is recommended as an invaluable me-
dicine for the speedy relief and perman-
ent cure of
Nervous Disorders Violent cramps in
Consumptions the stomach and
Loss of spirits back
Loss of appetite Indigestion

Hysterical affection Gout in the stomach
Inward weakness Pains in the limbs
and debility Relaxations, &c.

**Hamilton's Essence and Extract of
Mustard.**
A safe and effectual remedy for acute
and chronic rheumatism, gout, rheumatic
gout, palsy, lumbago, numbness, white
swellings, chilblains, sprains, bruises, pain
in the face and neck, &c. &c.

Lee's Ointment for the Itch.
Warranted an infallible remedy at one
application, may be used with perfect
safety by pregnant women, or on infants
a week old, not containing a particle of
mercury or any dangerous ingredient
whatever, and not accompanied with that
tormenting smart which attends the ap-
plication of other remedies.

**Hahn's true & genuine German Corn
Plaster.**
An infallible remedy for corns, speedily
removing them root and branch, with-
out giving any pain.

The Genuine Persian Lotion.
So celebrated among the fashionable
throughout Europe, is an invaluable cos-
metic, perfectly innocent and safe, free
from corrosive and repellent minerals,
the basis of other lotions, and of un-
paralleled efficacy in removing blemishes
of the face and skin, freckles, pimples,
inflammatory redness, scurfs, tetter, ring-
worms, sunburns, prickly heat, &c.

Hahn's genuine Eye Water.
A sovereign remedy for all diseases of
the eyes, whether the effect of nature's
weakness or of accident.

Tooth Ache Drops.
The only remedy yet discovered which
gives immediate and lasting relief in the
most severe instances.

Lee's Infallible Ague and Fever Drops
For the cure of agues, remittent and
intermittent fevers.

may be had gratis, describing cures per-
formed by the above medicines; the num-

ALEXANDRIA GAZETTE AND DAILY ADVERTISER.

PUBLISHED BY
SAMUEL SNOWDEN,
ROYAL STREET.

Daily Gazette 37...Country Gazette 25.

SATURDAY, JUNE 27, 1818.

FOR THE ALEXANDRIA GAZETTE.

A Friar elevated on a stool in a market place in Spain, preached to a large concourse of THE FAITHFUL. His sermon turned as usual for the efficacy of the Romish Creed to salvation, and the indescribable, endless, eternal punishment in fire and brimstone, of all who prayed to any other deity than "Maria mi madre." He drew a picture which was enough to frighten the Devil himself of that repository of the damned, which many orthodox theologians have placed in that country, whither Captain Symmes of Ohio and his brave hundred are to march in a summer or two—namely, the centre of the earth; and after having edified and delighted his auditory with a magic lantern view of all the Jews, Protestants, Calvinists, Mahometans, Molinists, Jesuits, Quakers, Socinians—in a word, every creature that had died from the beginning of the world up to that moment out of the catholic faith—dancing rigadoons in blue flames; he stooped and desired them to attend him to a very different region—in short, to Heaven, the eternal residence of the *Bonos Catholicos*, and the blessed. One would suppose that the papers of this district had taken a hint from some such preacher, and after having for many years past, amused their readers with a long raree show view of the hell of politics, were resolved to treat them, by way of contrast, with a frequent glance at religion; if it were not that sometimes the entertainment is checked with an occasional diversion of new fashioned christianity, *en masqueade*, in which the cloven foot of Tom Paine is seen peeping forth from under the domino of the chief Priest, and that generally there is so much more of sectarian controversy than true religion in those exertions, that for one who can regard them as affording a view of heaven, a hundred will see in them, "but the sorry sight" described by Hudibras:

Where gospel trumpeter, surrounded
By long ear'd rout, to battle sounded.
Since it has, however, got into vogue with our newspapers to dish up to their guests an occasional mess of something to pass by way of religion, may you not as well endeavour to turn the fashion to some useful purpose?—Give a column or two now and then to theology—Head it *Pisgah Corner*, and at the same time make it subservient to the interests of common sense. Preaching of one kind or other is all the mode; so that if a naughty boy throws a stone at random to the street, it is equal main and chance that it hits a pulpit orator to the great increase of the price of labor. Now, as those men, however good, are not often very learned, might you not offer a little instruction to the instructors, and tell them how to preach better; or at least with more decorum. There is reason to fear that the action of the pulpit, like that of the stage, is often most disgustingly overdone. The unanimated delivery of the old fashioned English parsons had been censured, and indeed with some reason; it was unimpressive, and instead of engaging attention, often provoked sleep;—but as gravity, under any circumstances, is a fitter inmate for church than levity, I still prefer it to those extravagant exertions, and theatrical gestures, which distinguish the stump—the stool—and not unfrequently, the pulpit. To rouse mankind from the sty of sensuality, and awaken them from the dreams of worldly interest—to increase the influence of virtue by additional motives, and deter the wicked by new terrors—to enforce morality by divine revelation—to convince our reason and affect our hearts, are or ought to be the great objects of every honest preacher of the gospel; and it will not admit of a doubt, that as the attainment of those objects cannot be furthered by a person in black gown and a bandy, appearing like a statue, with head, hands and eyes immovably riveted to a text book, so they must be completely defeated by indolent gestures, by extravagant action, and intonation of voice, and by that violent maniacal vociferation which sometimes cracks the ears of our

unoffending citizens as they pass by certain places of worship.
I know few subjects more deserving of discussion than this; and I think that the columns of a newspaper would be much more laudably employed in laying down some rational instructions for pulpit eloquence, than in giving public vent to the spleen of polemical scribes, or in propagating the religion of reason (as the disciples of the French school call it) and smuggling into our country, whole cargoes of contraband Deism, under cover of the darkness of the night, and of dubious and undefined names.

A CITIZEN.

From the *Balt. Fed. Rep.* June 25.
FROM SOUTH AMERICA.

We have been politely favored by a friend with Buenos Ayrean papers to the 20th of April, from which a gentleman of this city has obligingly furnished us with the subsequent translation:

Buenos Ayres, April 19.

From Chili.—Friday.—It is now four o'clock—the air is filled with shouts of joy, the roar of cannon, and the ringing of bells.—We have obtained a complete victory in Chili—1500 prisoners, all their artillery, their baggage, their general officers, a general called Ordóñez, are in our hands,—the pledge of victory. The miserable remnant of an army, that a few hours since promised an early conquest of Chili, now routed and fugitive, seeks in vain for escape by flight—our indefatigable cavalry are in pursuit. The dead strew the field of battle! The action lasted six hours. It was at the point of the bayonet,—the true weapon for the soldiers of liberty, with it we have overthrown the enemy. Our loss is inconsiderable compared with that of the Spaniards. We can easily realize it if we reflect that immediately after the issue of the battle, the vanquished experienced the greatest reverse in finding in their rear the rivers Maipo and Maule. How, indeed, can we conceive that an army, or rather the remains of an army, in disorder, could repass those rivers! Every moment more circumstantial details are received. It is necessary to see the whole community in clamor and congratulation—the streets thronged with citizens who make the air ring with cries a thousand times repeated, *viva la patria*—to witness the delirium of joy that prevails—to hear every one shouting and repeating, "we are conquerors!"—to form an idea of the general enthusiasm which this news has inspired. All are eager to circulate the glad intelligence—thousands of rockets from every door and terrace, announce and celebrate our joy—at evening, a complete and spontaneous illumination prolongs the brilliant day, which forever consecrates upon an imperishable basis the *Independence of South America!* Ferdinand trembles! He learns that soon Lima will disburthen herself of her oppressors; and, checked only by a feeble garrison, will shake off the yoke of servitude, and raise the standard of liberty. The intrigues of imbecility in Europe will be answered here only by our bayonets.

A new courier this evening announces that all who are not slain are prisoners—Osorio alone has escaped, and it is still expected that he will be overtaken; in fine, as the hero of our country says in his despatches, "the enemies of Chili exist no more."

On the 5th April, 1818, in the plains of Maipo, was fought this ever memorable action, the consequences of which are incalculable.

ARTICLOS DE BUENOS AYRES.
By the Woodrop Sims, we have received information by letter, that the Buenos Ayrean army, under the command of colonel Belcassa, had been attacked by the patriots, on the opposite side of the river, commanded by *Artigas*, and the former defeated, with the loss of their artillery and baggage, and between 6 and 700 killed and wounded. It is said that the government of Buenos Ayres endeavored to suppress the circulation of this intelligence, in order that it should not be generally known—notwithstanding which, the Americans were all advised of the true state of the case.—The action took place in March.

Since the above was in type, it has been verbally corroborated by a passenger on board the Woodrop Sims.

TO THE CURIOUS.

A draught horse, the property of Mr. Hesler of this borough, voided af-

ter having taken a powerful cathartic, a stone weighing one pound!!!—The figure of this stone was that of a kidney bean, with a smooth surface; its colour that of a common grey lime stone, which abounds in this neighborhood. On fracturing it transversely, it was found to contain a crooked piece of iron, probably a horse shoe nail, its centre surrounding this iron nucleus, appeared to be less solid than its circumference, interspersed here and there with particles of straw, oats, hay, &c.

From the *Pittsburgh Gazette*, June 19.

The cashier of the "Farmers and Mechanics Bank of Pittsburgh" has received a letter from three magistrates of Ogdensburg, in the state of New-York, informing him of the arrest and imprisonment in that place of Joseph L. Playmart, one of the robbers of the bank, who, it may be recollected, broke jail and escaped from Cincinnati some weeks since. It appears that this man has in his possession, the balance of the stolen money, which from the statement of Emmons, we presumed had been thrown into the Ohio river, when they were first arrested. It is highly probable that Playmart after breaking jail, returned to the place where the money was concealed, and took the gold, &c. which was missing, when Emmons discovered the plunder. There were a number of tracks at the spot, when it was found, and Emmons evinced great fear on observing them; as he thought they corresponded with the size of Playmart's feet. The place was too wild and the hill too steep to offer any inducement, even for the hunter.

Another letter from Baton Rouge to the cashier, states that a man who calls himself Julius Emmons has been arrested there, as answering the description of Joseph L. Playmart. The Cashier has written on to remove the suspicion. Since the above was in type, the following letter has been received:

Ogdensburg, June 3, 1818.
St. Lawrence Co. State of New-York.
MORGAN NEVILLE, Esq.

Sir,
On Friday last, Joseph L. Playmart, was apprehended in this village, on suspicion of having been concerned in the robbery of the Farmers and Mechanics bank of Pittsburgh, and was committed to the jail of this county. About \$5000 in gold and bills were found with him, which are in the hands of the magistrates; a particular description of which was forwarded by them, to you, on Saturday last per mail. On Sunday night, Playmart, with two other prisoners, broke the jail, and effected their escape. Immediately pursuit was made, and an additional reward of 50 dollars was offered for the apprehension of Playmart.—He was retaken about 15 miles from this place, and to-day has again been lodged in jail, where we hope to retain him until he can be demanded from the executive of this state, by the authority in yours. He appears to be a consummate villain, and as no doubt exists of the identity of the man described in your advertisement, and in that of Messrs Peebles and Leckey, Directors of the bank, every requisite precaution will be used to secure him.—We hope, however, immediate means will be taken on behalf of the Bank, to identify the money and the man, and to have him conveyed to his proper place of trial.

We are, sir,
very respectfully,
your obedient servant,
NATHAN FORD, } *Justices of the Peace.*

LATEST FROM KINGSTON.
We yesterday received by the British ship *Victoria*, in 15 days from Kingston, our regular files of the Chronicle and Courant, to the 4th inst. Some interesting extracts are made from them relative to the operations of the Patriot squadrons.

We lament to state, (says one of our late Kingston papers) that the town of San Fernando, in the Island of Trinidad, had been nearly destroyed by fire on the 30th April, when a considerable quantity of property was consumed.

Kingston, May 30.
The Independent squadron under Brion, which we mentioned in our last to be cruising in the Mona Passage, had, previous to proceeding in that direction, called off Antigua; when Brion sent in a boat to request permission to allow the squadron to enter and refit, but which was refused. Two vessels were along with the squadron, which had on board cargoes of mules, to defray the expenses of their refit, &c.

The Spanish schr. *La Concepcion*, capt. Don Joseph Garcia, of 1 gun and 55 men, belonging to the Havana, detained on the 27th of Dec. off Prince's Island, by H.M. ship *Cherub*, capt. Wells, on a charge of piracy, was brought into Port Royal yesterday. She had on board when taken,

near 500 slaves who were landed at Sierra Leone on the 1st inst. in company with the *Cherub*, which intended to cruise for a month on the coast of Africa, after which she would proceed to this station. Off Aguidilla Bay, on Sunday afternoon, *La Concepcion* was boarded by Adm. Brion, in a large ship, two brigs and a schooner in company. He mentioned that he was waiting to be joined by commodore Aury, when their united force would be 25 vessels of war; and it was their intention to attack the Spanish squadron at anchor at the Five Islands, which consisted of 21 vessels, two of them large frigates, that had recently arrived from Spain.

The ship noticed above, on board of which Brion's flag was flying, was one of about 700 tons, called the *Victoria*; and the Spanish vessels they intended (when united with Aury's squadron) to attack, had lately arrived from Cadiz, and were at the Five Islands near St. Bartholomews.

Brion had detained a large schooner called the *Scrape*, under the Buenos Ayrean flag, in consequence of her commander having committed some acts of piracy.

BUDGETTOWN, BARBADOS, April 25.
Four kegs of Spanish dollars were recently seized by two officers of His Majesty's Customs of this port, on account of their having been shipped without a permit for that purpose. This cause has been tried before the Hon. Richard Cobham, judge of the Vice-Admiralty Court, and his honor has been pleased to order the restitution of the specie, and directed that the seizers shall pay the cost.

Philadelphia, June 24.

LATEST FROM ENGLAND.

Papers and letters to the 21st of May, are received by the ship *Dido*, Maxwell, in 39 days from Liverpool; they contain no intelligence of importance. The editors of the Union have selected the following

MISCELLANEOUS ARTICLES.

The queen of England has been seriously ill, but was recovering.

The Duke of Wellington sailed from Dover for Calais, on the 17th May.

An article from Hamburg mentions, the king of Spain has recalled his minister Don Onis, from the U. States of America, and appointed the counsellor Sena to succeed him.

Letters from Nicau, in the canton of Berne, state that the inundations have again commenced, and that the whole district would soon be converted into one vast lake. Their occurrence this year is traced to the sudden melting of the snows on Mount Jura. If there should be any heavy fall of rains, the most calamitous consequences are anticipated. As it is, many of the inhabitants are preparing to remove and seek a livelihood elsewhere. The lake of Biennne rises an inch every 24 hours, and continues daily to widen its devastations.

It has been stated in letters from St. Helena, that Bonaparte has lately received, by some unknown means, 400,000 francs in gold, and a large quantity of diamonds. Money does not seem to be wanting to him or any of his adherents. Las Cases, it is ascertained, very recently drew bills for 3000l. by the way of Frankfurt, on a banker in London, and they were duly honored. It is even said that a draft for 10,000l. signed Napoleon, was lately presented to, and paid by a London house.

LONDON, May 8.
A Floating Chapel for merchant seamen, was opened, (or rather moored) in Bristol harbour on Saturday last. A flag inscribed with the word "ARM" was displayed, to denote the purpose to which the vessel was henceforth to be devoted, and Divine Service was performed on board in the course of the day, before a numerous assemblage of the people.

DRESDEN, May 2.
Yesterday afternoon a terrible fire broke out in the Castle of Pillnitz; it originated in the kitchen, and laid in ashes the whole of the great building which was inhabited by the royal household.—The Palace, properly so called, where the King and Princess reside, is uninjured.

LIVERPOOL, 21st May, 1818.
"We have not any of your favors to reply to—we have now to request you will consider our flour order as wholly cancelled from the receipt hereof—for so much grain of all kinds is arriving from every part of Europe, and so much flour from the United States, we now see little prospect of benefit by importations, particularly as it may, so advanced in the season, be getting sour. It is unfortunate, that the holders of flour should so long have persevered in keeping the price above its due proportion to wheat, and this has thrown it out of consumption, and put on the time, and allowed a stock to accumulate. Wheat takes the lead of flour, and during the early part of this week, business to some extent was done in wheat, agreeable with which we quote yours at 12s a 12s 6 per 70 lbs. Flour also was then more saleable than it is now, say Philadelphia, sweet, at 45s a 46s per barrel.—1 day each is heavy

sale. We are deceived as to the extent of our supplies; they much exceed what we had been led to expect, but we still think a real demand will take off our imports, and the next harvest is ready.—Cotton continues a slow sale, and the supplies arriving are heavy. Uplands are the best sale at 20s a 21s. Orleans dull at 20d a 22d. The late prices for Sea Island are wholly nominal, and there are sellers at a decline of 3d per lb. therefrom. Tobacco also is a dull and heavy sale—our last quotations nominal. Ashes are lower—fresh pots at 54s a 56s, and pearls 55s a 56s per cwt. Rice in bond at 55s a 57 per cwt. and dull. Flaxseed closing in Ireland at 70 per bbl. Quarter citron bark dull at 20s a 22s per cwt. In short, business of all kinds is dull here, and we cannot but fear the shippers from your side must sustain heavy losses. We are glad you escaped so well. We remain with much respect, dear sir, your most obt. serv'ts.

CRYLON.

Innumerable Bon.—Some time ago Mr. Edwin, an Englishman, resident in the East Indies, saw a *bon constrictor*, that measured thirty-three feet four inches in length. It was covered with scales, and ridged in the centre; the head was green, with large full spots in the middle, yellow streaks round the jaws, and a circle like a golden collar round the neck, and another black spot behind that; the head was flat and broad, with eyes monstrously large and very bright and terrible; its sides were of a dusky olive color; its back was very beautiful, a broad streak of black curled and waved at the sides, running along it—along the edges of this and a narrow streak of fleshy color, on the outside of which was a broad streak of a bright yellow, waved and curled, at small distances with roundish and long blotches of blood color. When it moved in the sun it appeared exquisitely beautiful. It had perched itself on a large palm tree; as a fox passed by, it darted down upon him, and in a few minutes took him into its stomach. Next morning a monstrous tiger, about the height of a heifer, passing, it darted down, seized him by the back with its teeth, and twined itself three or four times round his body; it then loosed its teeth from his back and seized his head, tearing and grinding, and choking him at once, whilst the furious tiger resisted to the utmost; finding him hard to be conquered, and his bones not easily broken, it by winding its tail around his neck, dragged him to the tree, and then setting him against it, twined himself about both him and the tree, and crushed him against it, till his ribs, and the bones of his legs, and at last his skull, were broken and bruised; after it had killed him with this inexpressible torture of about a day's continuance, it coiled over his body with slaver till it became like a lump of red flesh—and last, with a labor of some hours continuance, sucked the whole carcass into his stomach.—While it was gorged herewith, and no doubt, fatigued with the late toil, Mr. E. and his Ceylonese companions killed it with clubs. Its flesh was whiter than veal, and had a fine taste—and indeed, in Brazil, and many other places, serpent's flesh is eaten for food.

VIRTUE.

It is with virtue as with the best perfumes, which never smell so well as when they are bruised and thrown into the fire. Such an advantage has man, who triumphs over adversity.

Those who have not yet had an opportunity will do well by giving their at- tention, as the performances have never before been represented in this place by any other person, and being positively the last night.

BILL IN CHANCERY.
Robert Perry
versus
James B. Dunnington, Robert Dunning- ton, Francis Taylor and Elizabeth B. his wife, James Bloxham and Catharine his wife, William Simmons and Esther his wife, heirs of William Dunnington.
THE Complainant alleged in his bill that the Respondents have in pos- session the real estate of their deceased father Wm. Dunnington, whose personal estate was not sufficient for the payment of his debts. Wm. Dunnington's estate is indebted to the complainant in a large sum of money. The object of the bill is to procure a decree for the sale of the land, for the payment of the debts re- maining unpaid by the personal estate. Some of the heirs of Wm. Dunnington are non-residents.—It is thereupon, at motion of the Complainant, ordered that he cause a copy of this order to be in- serted in the Alexandria Gazette for the space of three months, to the intent that the absent defendants may have notice of this application, and of the subject and object of the bill, and may be warned to appear in this court in person or by a so- licitor, to show cause, if any there be, wherefore a decree should not pass as prayed. Charles County Court,
March Term, 1818.
ON application to Charles county court by petition in writing of John Smith, of Charles county, for the benefit of the act of assembly for the relief of sundry insolvent debtors, passed at November session 1805, and the several supplements thereto, on the terms mentioned therein, a schedule of his property and a list of his creditors on oath, so far as he can ascertain them, being annexed to his peti- tion, and the court being satisfied by com- petent testimony that the said Jno. Smith has resided two years immediately pre- ceding the time of his application, in the state of Maryland, and being also sat- isfied that the said John Smith is in actual confinement for debt, and the said John Smith having entered into bond with suf- ficient security for his personal appear- ance in Charles county court, to answer such allegations as his creditors may make against him.—It is therefore or- dered and adjudged that the said John Smith be discharged from imprisonment; and that by causing a copy of this order to be inserted in some one of the newspa- pers edited in the District of Columbia, once a week for two months successively before the third Monday of August next, he give notice to his creditors to appear before the said Court, at Charlestown, in said county, on the said third Monday of August next, for the purpose of recom- mending a trustee for their benefit, and to show cause why the said John Smith should not have the benefit of the several insolvent laws as prayed. Given under my hand this 20th day of June 1818.

Dr. Thomson's System of Chemistry.

IN FOUR VOLUMES OCTAVO. THE preceding edition of Dr. Thomson's Chemistry, had acquired so much reputation both in England and upon the continent of Europe, that a new edition, comprising the new facts with which the science had been enriched, and the new views of the subject, which extended knowledge had suggested as indispensable, was eagerly looked for by the scientific world. A new edition has accordingly appeared, wherein the former edition of five volumes has been condensed into four.

All the new discoveries, and all the new theories of Chemical Phenomena, have been considered and embraced in the present improved edition: so that it is indispensable to the chemical student, as presenting the only condensed view of the changes and alterations in chemical doctrine, which the discoveries of the last ten years have suggested. No apology therefore can be necessary for reprinting such a book in this country; for the press does not furnish a substitute for it. But, there is so much theoretical suggestion—so much abstract calculation—so much fact of dubious authority—and so much dubious validity—that notes and illustrations are absolutely necessary, not merely to render the book more useful, but more intelligible.

Under these impressions, I thought fit to write notes in illustration (and sometimes in contradiction) of the work itself, rather than to make any abridgement of it. Those who wish to know the modern views of chemical science, must peruse it; and to very many who will be anxious to study it, elucidation will be necessary. I have endeavored to supply these, to the best of my ability; regardless whether my own opinions are in dissonance or coincidence with those of my author; leaving to the reader to decide between us.

The work will be published, with notes and illustrations, in four volumes 8vo.
THOMAS COOPER, M. D.

CONDITIONS.

I. The work will be printed on a superfine paper, with a new small pica letter; and will be published early in the ensuing summer.
II. It will be illustrated with a number of cuts, of which several have been necessarily added to the London edition.
III. It will be delivered to subscribers at \$12 to non-subscribers at \$14, in boards. The London edition sells for \$18.
Subscriptions will be received by JAMES KENNEDY & SON.

James Kennedy & Son,

RESPECTFULLY inform the public that they have just received from LEE'S MEDICINE STORE, No. 46, Maiden lane, New-York, a fresh supply of the following valuable MEDICINES:

Hamilton's Worm destroying Lozenges.

Which have within sixteen years past cured an immense number of persons of both sexes of every age and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar title so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent & is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humors and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

Description of Worms, and the symptoms by which they are known.

Worms which infest the human body are chiefly of four kinds viz.—The Terebra or large round worm; the Ascarides or small maw-worm; the Cucurbitina or short flat white worm; and lastly, the Tenia or tape-worm, so called from its resemblance to tape. This is often many yards long and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and sometimes voracious; purging with slimy and fetid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs and lowness of spirits; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

The Restorative Powder for the Teeth and Gums.

For the prevention and cure of Bilious and Malignant Fevers is recommended HAHN'S ANTI-BILIOUS PILLS. THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age. They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance; they are celebrated for removing habitual constiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.
